# Modular bed- and mattress cleaning unit

A Swedish Modules and Semi-Staal concept

- When extra capacity is needed
- When space is a problem within the hospital
- Permanent solution/building
- Risk mitigation / One point of contact
- Improved hygiene for the patients
- Breaking the chain of infection
- Improved ergonomics for personell
- Frees up time for patients
- Documented and validated bacterial results
- For quick deployment / Short time to market

# Technical data

## Bed line

- Capacity: Up to 25 beds/h
- Suitable beds ready for automatic cleaning  
e.g. Linet, Proton, Meerivara Carena, KR-OPUS, Scanbed 910, Arjo Huntleigh
